

CHEMSERVICE is a leading global consultancy to the chemical industry and its value chain with main offices in Germany, Luxembourg and Korea. For more than 12 years, we support our clients in the review, implementation and observation of national and international chemical regulations as an independent service provider. We use our scientific, technical and strategic know-how to overcome regulatory barriers globally, giving our clients a competitive edge.

We are growing and seek to expand our EU advocacy & risk assessment teams with a motivated

Socio-Economic Analysis Expert

Your tasks:

- Develop socio-economic evaluations of chemicals and their uses in the EU market, in the context of REACH (authorisation and restriction), BPR, or similar legislation
- Perform market and trend analysis for specific chemicals in the EU and worldwide
- Support Regulatory Management Option Analysis (RMOA) activities
- Evaluate potential economic impact of substitution of chemicals by possible alternatives
- Self dependent project management

Your profile:

You have an appropriate university degree or postgraduate qualification in economics, engineering, business management, or related fields.

You have been working for at least 3 years as regulator in the context of international chemical legislations, especially with EU regulations such as the BPR and REACH.

You have significant experience with socio-economic analysis of chemicals or industrial markets.

We expect as well an in-depth understanding of chemical regulatory processes, systems and their related institutions.

We expect from you analytical skills, capabilities for working independently (but as part of a team), very good communication and presentation skills in English and an additional EU language, and willingness to enter into new challenging fields of activity.

We offer:

- A motivated team with a high expertise
- A good working atmosphere
- Interesting and self dependent tasks with global customers

We offer you a full-time, permanent contract with flexible working time and provide additional professional training, personal development and a competitive salary with bonuses and benefits. Preferably, your place of work will be situated in one of our offices based in Germany, Luxembourg, UK or Spain.
