## Chemservice completed the acquisition of REACH ChemAdvice

Dear valued customer / business partner,

We are happy to announce that as of January 01, 2018, REACH ChemAdvice with its offices in Kelkheim, Germany, has become part of the Chemservice group of companies. Due to the ever-increasing requirements of regulatory affairs legislation, REACH ChemAdvice decided to liaise with Chemservice to be able to offer a much broader portfolio of services. With this step, Chemservice together with REACH ChemAdvice further continues to enlarge the customer base and its representation globally as one of the leading independent consulting companies to the chemical industry and its supply chains.

To prepare for a seamless integration and continued customer satisfaction, Dr. Rudolf Staab, Managing Director of REACH ChemAdvice, will stay on board together with his team in order to ensure business continuity while maintaining a clear priority on meeting customer needs.

Chemservice is an interdisciplinary team of chemists, biologists, toxicologists, environmental scientists and regulatory experts, with main offices in Germany, Luxembourg, Korea, Switzerland, France and further support in countries like the UK and Canada. Together with REACH ChemAdvice, Chemservice establishes as well a hub in the United States, with further growth opportunities in this important market for the chemical industry. Beyond national and international chemical control legislations (for regions like the EU, Korea, the US, Turkey, Taiwan,...), inventory notifications, registrations of biocides, pesticides, cosmetics and food contact materials, Chemservice is established in health and safety, consortia management, advocacy and socio-economic analysis, to support its clients comprehensively. Chemservice is as well the developer and operator of the 'REACH-Code-Model', a unique software-based solution to provide REACH coverage for EU imports through multi-step non-EU supply chains, enabling formulators and traders to benefit from upstream supplier registrations without disclosing confidential business information.

REACH ChemAdvice and Chemservice are members of ORO, the Only Representative Organisation, based in Brussels, Belgium. Dr. Dieter Drohmann, the founder of Chemservice, is chairing ORO as president.

For more information about Chemservice and REACH ChemAdvice, please visit <http://www.chemservice-group.com> and <http://www.reach-chemadvice.com>.

We are confident that the combined businesses will lead to promising growth opportunities in the future for our customers as well as for Chemservice. Please be assured that we are dedicated to finding the best solutions to suit your needs.
