

CHEMSERVICE is a leading global consultancy to the chemical industry and its value chain with offices in Germany, Luxembourg, South Korea, Switzerland, Spain, UK and USA. For more than 12 years, we support our clients in the review, implementation and observation of national and international chemical regulations as an independent service provider. We use our scientific, technical and strategic know-how to overcome regulatory barriers globally, giving our clients a competitive edge.

Our new UK entity was established in February 2019. We are growing and seek to expand our regulatory affairs team with a motivated,

Regulatory Affairs Advisor

Your tasks:

- Manage regulatory activities to support customers with their chemical compliance requirements
- Evaluate and respond to complex chemical regulatory requests
- Communication with international customers, laboratories, industry groups, authorities
- Dossier preparation for (UK-)REACH registrations and/or biocidal products
- Compilation of safety assessments for human health and the environment
- Data gap analyses, data research, study monitoring
- Project management

Your profile:

You have an appropriate university degree in ecotoxicology, toxicology, biology, chemistry, environmental sciences or related fields.

You have been working for at least 2 years as a regulatory affairs professional or related discipline in the context of international chemical legislation, especially with EU regulations such as REACH, CLP or the BPR.

We expect a good understanding of chemical regulatory processes, systems and their related institutions, analytical skills, the ability to work independently, very good communication and presentation skills, and a willingness to enter into new challenging fields of activity as part of a global team.

We offer:

- A motivated team with a high expertise
- Interesting and self dependent tasks in an international business environment
- A full-time, permanent contract with flexible working time and additional professional training, personal development and a competitive salary with benefits.

Preferably, your place of work will be Maidstone, UK, with occasional travel for meetings or customer visits.

Interested?

We are looking forward to your application!
