

April 2021

Chemservice and REACH Global Services (RGS) join forces in Turkey for KKDIK support

Both RGS and Chemservice are global leading regulatory affairs consultancy companies, providing support to the chemical industry and its value chain.

RGS is engaged since 2008 in REACH and EU cosmetics consultancy services, and since 2011 in Turkish chemical regulations (CICR, SEA, KKDIK), whereas Chemservice is a leading company in the area of substance related consortia, SIEFs, task forces and global data handling.

Both companies are proud to announce that Chemservice and RGS have partnered to incorporate **ChemAdvocacy Turkey Ltd.** to provide technical and administrative services in order to manage KKDIK technicalities with regard to data sharing and LoA management and in order to provide a “One-Stop-Shop” for KKDIK compliance. ChemAdvocacy Turkey will bridge over 10-year-old REACH consortium management experience within KKDIK regulatory framework and Turkish public law.

The services provided will include consortia management, data sharing, data access & data generation services, LoA & financial management as well as technical services, such as dossier compilation, (pre-)registrations, SDS preparation, CSR preparation, study placing & monitoring.

Amongst the services offered are the following:

- Assist formation of MBDFs, support task forces or consortia and coordination thereof.
- Ensure & organize data access or data acquisition (incl. dossiers) from REACH registered substances via REACH consortia/lead registrants/data owners.
- Secure data acquisition for non-REACH registered substances.
- Provide cost and reimbursement calculations for KKDIK registrants and handling of all financial services (payment of data owners, collection of money from registrants, reimbursements, etc.).
- Prepare and manage required agreements and documentation in compliance with EU consortia provisions harmonized with Turkish public and private law criteria.
- Provide technical services, such as dossier & CSR preparation and management.
