

To support our international customers, we seek to expand our Regulatory Affairs Team in Mertert (Luxembourg) or Worms (Germany) with a motivated

Regulatory Affairs Advisor / Risk Assessor (full-time)

We at **CHEMSERVICE** support our clients in the review, implementation and observation of national and international chemical regulations. Due to our flat hierarchies, our efficient work processes and the ability to react quickly and flexibly to requests, Chemservice has developed into one of the leading global consultancies to the chemical industry and its value chain over the past 18 years. We are committed to the professional and personal development of all our 70 employees located in Europe, South Korea and the United States. We are constantly developing ourselves in order to continue providing our clients with the best possible advice and giving them a competitive edge.

You...

- Communicate with our international customers, the authorities and laboratories.
- Evaluate the use and exposure of a substance for chemical safety assessments (human health and environment) using various modelling tools as well as qualitative methods.
- Determine conditions of safe use required for a substance based on its hazard and risk profile.
- Support the generation and evaluation of human biomonitoring data.
- Support dossier preparation for industrial chemicals and/or biocidal active substances and products.
- Manage your projects self-dependently.
- Develop creative problem-solving strategies.
- Challenge existing processes and develop conceptual changes and improvements in the team.

Your profile:

- Ideally, you have an academic degree in natural/environmental sciences or engineering, or a comparable educational profile. Relevant professional experience in the chemical industry would be a strong asset.
- You have very good communication and presentation skills in English and German.
- You enjoy complex tasks and you are ready for a new challenging field of activities.
- You are skilled in interdisciplinary and solution-oriented thinking.
- You are a team player and work in a self-dependent, reliable and structured way.
- Experience with chemical control legislations such as the REACH Regulation would be an asset.

We offer you...

- Becoming part of a dedicated Risk Assessment team with a high level of expertise.
- Interesting tasks in an international business environment.
- A full-time, permanent contract with flexible working hours and a competitive salary.
- Professional training and enough time to familiarise with new areas of responsibility.
