

To support the management of international consortia, we seek to expand our team in Worms (Germany) with a motivated

Experienced Consortium Manager – International chemical regulations

We at **CHEMSERVICE** support our clients in the review, implementation and observation of national and international chemical regulations. Due to our flat hierarchies, our efficient work processes and the ability to react quickly and flexibly to requests, Chemservice has developed into one of the leading global consultancies to the chemical industry and its value chain over the past 14 years. We are committed to the professional and personal development of all our 70 employees located in Europe, South Korea and the United States. We are constantly developing ourselves in order to continue to provide our clients with the best possible advice and give them a competitive edge.

You...

- support our international consortia;
- handle data and cost sharing requests in accordance with international chemical regulations;
- set up and manage cost calculations;
- prepare corresponding agreements;
- manage your projects self-dependently;
- develop creative problem-solving strategies;
- challenge existing processes and develop conceptual changes and improvements in the team.

Your profile:

- Ideally, you have an academic degree in natural/environmental sciences, economics or engineering, or a comparable educational profile.
- You have been working for at least 3 years as consortium manager or regulator in the context of international chemical regulations, especially REACH.
- You have an in-depth understanding of chemical regulatory processes, systems and their related institutions.
- You have very good knowledge of Microsoft Word and Excel and you are experienced in managing complex data sets.
- You have very good communication and presentation skills in English and German.
- You are skilled in interdisciplinary and solution-oriented thinking.
- You are a team player and work in a self-dependent, reliable and structured way.

We offer you:

- a full-time job in a flexible team;
- an in-depth introduction into your area of responsibility;
- the opportunity to actively shape your projects;
- flexible working time;
- a casual and pleasant working environment;
- a fair, performance-based remuneration.

Interested?

We are looking forward to your application!
