

To support our international customers, we seek to expand our Regulatory Affairs Team in Mertert (Luxembourg) with a motivated

Regulatory Affairs Advisor – Global Registrations

We at **CHEMSERVICE** support our clients in the review, implementation and observation of national and international chemical regulations. Due to our flat hierarchies, our efficient work processes and the ability to react quickly and flexibly to requests, Chemservice has developed into one of the leading global consultancies to the chemical industry and its value chain over the past 17 years. We are committed to the professional and personal development of all our 70 employees located in Europe, South Korea and the United States. We are constantly developing ourselves in order to continue providing our clients with the best possible advice and giving them a competitive edge.

You...

- support dossier preparation for the worldwide registration of industrial chemicals.
- plan and coordinate scientific studies for the safety evaluation of chemicals.
- work in an interdisciplinary field including chemistry, human toxicology, ecotoxicology, environmental fate, regulatory support and hazard communication.
- successfully navigate clients through regulatory supply chain compliance matters.
- communicate with international clients, laboratories and authorities.
- are continuously evolving due to constantly changing regulatory and scientific requirements – always be on the edge.
- manage your projects self-dependently and efficiently.

Your profile:

- Ideally, you have an academic degree in natural/environmental sciences or engineering, or a comparable educational profile or relevant professional experience in the chemical industry.
- You have very good communication and presentation skills in English and German.
- You enjoy complex tasks and you are ready for a new challenging field of activities.
- You are skilled in interdisciplinary and solution-oriented thinking.
- You are a team player and work in a self-dependent, reliable and structured way.
- Experience with chemical jurisdictions such as the REACH Regulation would be an asset.

We offer you...

- a full-time, permanent job in a dynamic team.
- sound training in your area of responsibility.
- the opportunity to actively shape your projects.
- flexible working time as well as the possibility of mobile working.
- a casual and pleasant working environment.
- an attractive salary and bonuses.
